Every year the WIAA State Television Network provides exciting live coverage of the Boys’ and Girls’ Hockey and Basketball Championships to more than two million households. It’s a Wisconsin tradition! But if you can’t be courtside or follow the games at home, you don’t have to miss the action. Watch from any WIAA Network station website, or download the WIAA app. We’re proud to partner with the WIAA to help support high school athletics throughout Wisconsin.
The WIAA Middle Level/Junior High Rules at a Glance offers a brief synopsis of WIAA Bylaws and Rules of Eligibility, to address in general some of the most common questions of the membership.

WIAA Bylaws, which outline the provisions of membership in the Association and the Rules of Eligibility, appear in the WIAA Middle Level/Junior High Handbook. The reader should refer to that publication, or confer with your school athletic director, for more complete information. Your AD should always be your first contact for questions or concerns about school sports.

It is the responsibility of member schools to abide by the rules of the Association, to educate students, coaches, parents and others regarding the provisions of membership and Rules of Eligibility and to report to the WIAA all violations of Association provisions.

The WIAA Constitutions states that each member school must have administrative oversight of at least one independently sponsored interscholastic athletic program that is maintained throughout duration of membership.

Junior high/middle-level schools are not restricted, as to what sports they conduct in the fall, winter, or spring seasons, however, the following regulations do apply:

There is to be no overlap of fall, winter and spring seasons.

FALL – The maximum length of a fall season is 10 weeks, concluding on the Saturday of the 10th week.

WINTER – The maximum length of a winter season is 15 weeks, concluding on the Saturday of the 15th week.

SPRING – The maximum length of a spring season is 10 weeks, concluding no later than the last day of school.

It is recommended that schools consider using the high school guidelines for minimum days of practice.

National Federation rules are followed, in junior high/middle-level competition, but schools and conferences may adapt those rules for safety reasons, or to allow more students to participate. Examples of adaptations might be:

1. Extra periods of play, to allow participation by youngsters that did not get an opportunity to play in the regular game.

2. Longer periods of play, designed for the same reason as number 1.

3. Weight considerations and restrictions.

GAME MAXIMUMS – Member schools may not exceed the game maximum requirements.

CONTEST OFFICIALS – A school shall use only persons licensed with the Association for purposes of officiating junior high/middle level (Grades 6-8) interscholastic contests. Schools must follow the requirements for number of licensed officials needed at each contest.

NON-SCHOOL PARTICIPATION (IN-SEASON) – It is the philosophy of this Association that a student owes loyalty and allegiance to the school and team of which he/she is a member during the season of a given sport. Athletes may compete in not more than two non-school events with prior school approval during each regular sport season. The event(s) will not count against the individual maximum for the athlete in that sport. A student becomes ineligible in a sport for the remainder of the season for competing in more than two non-school events in the same sport during the season of practice and competition established by the school. The penalty may be reduced upon request of a school on the basis of documented extenuating circumstances.
COACHING REQUIREMENTS – All coaches must meet the Coaches Not Licensed to Teach (CNLT) requirement if not certified to teach in Wisconsin. All paid coaches must be AED/CPR and First Aid certified and maintain certification while coaching.

PARTICIPATION – A student is eligible for interscholastic competition at a junior high/middle school (Grades 6-8), if he/she is carried on the attendance rolls (for purposes of state equalization aids) as a fulltime Grade 6, 7, or 8 student in that member school, with the following additional provisions: 1. A student is eligible to participate in interscholastic competition at the level (Grades 6-8) to which he/she has been placed/promoted. 2. Junior high/middle level students (Grades 6-8) are not eligible to compete with or against students enrolled in Grades 9-12.

Students at private schools may be afforded eligibility at the community/local public middle level/junior high school provided that the private school is also a WIAA member. A private member school student is eligible for interscholastic competition at a member junior high/middle level public school (Grades 6-8), if he/she is carried on the attendance rolls as a fulltime Grade 6, 7, or 8 student in the private school, with the following provisions: 1. A student is eligible to participate in interscholastic competition at the level (Grades 6-8) to which he/she has been placed/promoted. 2. Formal school Board of Education approval is required by all of the schools involved. 3. Formal middle level athletic conference approval is required by all of the schools involved, when conference membership applies.

AGE REQUIREMENT – A student shall be ineligible for interscholastic competition as a member of a team consisting of Grades 6, 7, and 8 students if he/she reaches his/her birthday before August 1 of any given school year (6th grade - 13, 7th grade - 14, 8th grade - 15).

HEALTH COMPLIANCE – A student may not practice for or participate in interscholastic athletics until the school has written evidence on file in its office attesting to: 1. Parental permission each school year including an acknowledgement of receiving the school athletic code. 2. Acknowledgement of receiving the WIAA Rules of Eligibility. 3. Athletic Emergency Form. 4. Current physical fitness to participate in sports.

ALL-STAR ACTIVITIES – It is the philosophy of this Association that all-star games and similar activity do not serve the best interests of junior high/middle level students, because of overemphasis, exploitation, selection procedure, and/or other factors. A student becomes ineligible in a sport for a maximum of one year from date of last offense for participating in an all-star game or similar activity.

AMATEUR STATUS – A student may not accept, receive and/or direct to another, reimbursement in any form of salary, cash, or share of game or season proceeds for athletic accomplishments, such as being on a winning team, being selected for the school varsity team, or being a place winner in an individual tournament, etc. A student may receive: school mementos valued not more than $200, an award valued no more than $100 retail, and may retain non-school competition apparel worn by the student as part of the uniform. Rules further prevent athletes from receiving compensation or benefit, directly or indirectly, for the use of name, picture and/or personal appearance as an athlete because of ability, potential and/or performance as an athlete. Athletes may not receive free and/or reduced rates on equipment, apparel, camps/clinics/instruction and competitive opportunities that are not identical for any and all interested students. A student may not be identified as an athlete, provide endorsement as an athlete, or appear as an athlete in the promotion of a commercial/advertisement and/or profit-making event, item, plan or service. Also, an athlete violates this rule if he/she plays in any contest (school or non-school) under a name other than his/her own.
This HANDBOOK was published following Annual Meeting of State Association held on April 17, 2019. All 2020 amendments to the Constitution, Bylaws and Rules of Eligibility were postponed to the 2021 Annual Meeting. The 2020 Annual Meeting was canceled due to Coronavirus mitigation efforts.

Middle Level Athletics Program Philosophy

(Endorsed from Department of Public Instruction publication - “Middle Level Athletic Programs”)

Program philosophy should be supported by all those involved with the program.

The mission of middle level athletics is to provide an enjoyable educational experience for young adolescents based on their developmental characteristics and needs. The development of the young adolescent’s self-esteem, citizenship, responsibility, and skills in cooperative and leadership behaviors are positive outcomes of appropriate middle level athletic programs. These programs should be enjoyable, vigorous, and safe and should occur in a positive climate with appropriate adult leadership and support. Effective middle level athletic programs are coordinated with other school and community activities to offer additional opportunities for young adolescents to explore varied interests. Middle level athletics are an essential part of the total educational process and an excellent opportunity for the home, school, and community to work together.

Characteristics of the Young Adolescent

(Endorsed from Department of Public Instruction publication “Middle Level Athletic Programs”)

The following information lists selected characteristics for the young adolescent. Middle level programs should take these characteristics into account. These characteristics and their implications have been reviewed and adopted by experts in middle-level athletics and middle level education.

* growth in height, weight, body proportions
* growth in organs of digestion and respiration
* growth in sex characteristics
* development of physical abilities
* need for positive relationships outside the home
* substitution of peer group standards for those of family
* need for social experiences in groups
* feelings of social and personal inadequacy
* development of ethical standards

Program Goals

(Endorsed from Department of Public Instruction publication - “Middle-Level Athletic Programs”)

1. The developmental characteristics of young adolescents should provide the foundation for the middle level athletic programs and philosophy.

2. Coaches, parents, athletic directors, administrators, school board members and community leaders need to be knowledgeable about characteristics and needs of young adolescents, as well as appropriate coaching strategies and role model behaviors for them.

3. Programs should promote behaviors that include cooperation, sportsmanship and personal improvement. Winning is not the primary goal of the program.

4. The program should be open to all young adolescents and provide a positive experience. All young adolescents should have the opportunity to participate, play and experience skill improvement. Formation of teams should be determined by the number of young adolescents interested in the program.

5. Each activity should have a predetermined season. Athletic activities, including practice schedules, should be flexible with concern for student conflicts and family schedules.

6. Athletic programs should have clear, written policies that reflect the needs of young adolescents. Policies should be concise and include student expectations and guidelines for coaches, parents, and spectators.
Introduction to the WIAA

The Wisconsin Interscholastic Athletic Association is a voluntary, unincorporated and nonprofit organization. In 2020-21, there are 513 schools in the membership, including all senior high schools in Wisconsin’s public school districts, statewide schools, specialty schools, and religious and independent schools. Another 78 are associate members. There are also 49 members in the WIAA Junior High/Middle Level association with three associate members. The WIAA had its earliest beginnings in late 1895 and early 1896, and the first set of rules was adopted in December of 1896.

The governing body of the WIAA is the Board of Control which consists of 10 administrators from the senior high membership and one representative of the Wisconsin Association of School Boards. Seven of the 11 members represent geographical districts of the state, one is an at-large gender representative, one an at-large ethnic minority representative, and one is an at-large nonpublic school representative. The WASB member is named by its Board of Directors. Liaison representation is given to WADA (Wisconsin Athletic Directors Association), WASB (Wisconsin Association of School Boards) and the DPI (Department of Public Instruction). The first Board of Control was elected in 1897.

To assist the Board, an Advisory Council of administrators from senior highs was created in 1949 that now consists of 18 members. There are five members each from large, medium and small school categories and three at-large representatives, gender, ethnic minority and nonpublic school.

A Middle Level Council was created in 1996. Seven of the 10 members represent geographical districts of the state, one is an at-large gender representative, one an at-large ethnic minority representative, and one is an at-large nonpublic school representative. Liaison representation is provided to WAMLE (Middle Level Educators Association), DPI (Department of Public Instruction) and WATA (Wisconsin Athletic Trainers Association).

Operation of the WIAA is the responsibility of Executive Director Dave Anderson and the executive staff at WIAA headquarters at 5516 Vern Holmes Drive in Stevens Point, WI. In addition to Anderson, there are five additional executive staff members and 13 members of the support staff. There have been four other executive heads of the WIAA, the first being P.F. Neverman who served from 1924-1951, Cliff Fagan from 1951-1957, John E. Roberts from 1957-1985 and Doug Chickering from Jan. 1, 1986-July 31, 2009. Dave Anderson became executive director on Aug. 1, 2009.

The WIAA conducts an Annual Meeting (senior high) each April which provides its membership the opportunity to amend the Constitution, Bylaws and Rules of Eligibility and address special topics. The WIAA is a charter member of the National Federation of State High School Associations.

The WIAA HANDBOOK, which is published each summer, is distributed free of charge to all administrators and coaches of member schools. It also is available to others at a cost of $12. The WIAA YEARBOOK also is available at a cost of $18. The Association also publishes 4 issues of the WIAA BULLETIN from August to May. It is available on the WIAA website to the membership, as well as to licensed game officials.

Constitution

The WIAA Constitution applies to high school and junior high/middle level. The Bylaws and Rules of Eligibility are published separately for high school and junior high/middle level.

For the convenience of readers, new rules and rules clarifications in the Constitution, Bylaws, and Rules of Eligibility have been highlighted (shaded areas).

Article I – Name
Section 1 – Association
A. The name of this voluntary, unincorporated, and nonprofit organization shall be the Wisconsin Interscholastic Athletic Association (WIAA), hereinafter referred to as the Association.

Article II – Purpose
Section 1 – The purpose of this Association is threefold:
A. To organize, develop, direct, and control an interscholastic athletic program which will promote the ideals of its membership and opportunities for member schools’ participation.
B. To emphasize interscholastic athletics as a partner with other school activities in the total educational process, and formulate and maintain policies which will cultivate high ideals of good citizenship and sportsmanship.
C. To promote uniformity of standards in interscholastic athletic competition, and prevent exploitation by special interest groups of the school program and the individual’s ability.

Note: The WIAA membership-sponsored tournaments are the collective property of the Association and not of any individual member. The Association reserves the right to promote and advance the membership’s interests with publication information; exclusive arrangements to create recognition and exposure for school-sponsored activities; restrictive policies prohibiting exploitation and commercialization of membership-sponsored tournaments; appropriate proprietary interests; and the use of images or transmissions identifying students, administrative personnel and member school marks.

Article III – Membership
Section 1 – Eligibility

Note: A charter school’s status shall be as an Associate member. Associate membership does not include voting or cooperative team privileges.

B. Membership is not available to schools belonging to another Wisconsin state-wide interscholastic athletic association.
   Note: WIAA assigned conferences are excepted.

C. For continued membership following their probationary period, schools must have administrative oversight of at least one independently sponsored interscholastic athletic program or co-op athletic program that is maintained throughout duration of membership.

Section 2 – Admission

E. Exceptions to items A4 and B of this section will be considered for approved charter schools, upon application from their public school governing bodies.

Note 1: Consideration will be given to residency, enrollment, the chartering authority and the number of charter schools under the jurisdiction of the chartering authority. It will be required that the chartering authority has also approved membership for at least one stand-alone member in good standing.

Note 2: In multi-high school districts, charter school students are eligible at the school of residence only. WIAA transfer rules apply.

Section 3 – Classification
A. Each senior high school shall be classified for purposes of membership, representation, and competition (including tournaments where necessary) on the basis of previous year’s enrollment on the third Friday in September.
   1) Schools with only Grades 10-12 students shall add, for purposes of classification and competition:
      a. The total enrollment figure of the Grade 9 students, if there is only one school with Grades 10-12 students in the district.
      b. One-third of the enrollment of Grades 10-12, if there is more than one school with Grades 10-12 students in the district.
   2) The Board of Control shall have authority to adjust enrollment figures in unusual situations (such as consolidation, formation of new school, gain or loss of district, etc.), provided such information is made known before September 15 of each year.
   3) The enrollment of schools consisting of students of only one sex shall be doubled to determine its classification.
      Note: When two or more school districts consolidate, the third Friday enrollment count of the previous year will be used for all WIAA tournaments.
   4) In a multiple high school district, charter school enrollment will be identified by the district according to student residence. The students will be assigned and counted by the school of residence for participation, enrollment and divisional classification.

Section 4 – Dues and Assessments

Many eligibility issues at the middle level are identical to those at the senior high level. Therefore, you may refer to the Senior High Handbook for help in clarifying issues of eligibility not found in the Middle Level Handbook.

C. According to state law, a school may use on its interscholastic teams students residing within the district boundary who are bona fide home-based private education students as defined by state law on the same basis and to the same extent as all other full-time students at the member school.

Section 4 – Scholarship
A. A student in Grade 6, 7, or 8 must meet minimum academic standards established by the school he/she attends.

1. Minimum academic standards shall be established by all schools. The following areas should be included in formulating policy for students, who do not meet the established minimum academic standards.

Section 2 – Verification
A. A birth or baptismal record, or court verdict will establish the age of a student.

Article IV – Amateur Status

Section 1 – Loss of Eligibility
A. A student shall be an amateur in all recognized sports of this Association in order to compete in any sport, and he/she shall become ineligible for all further participation in the school’s interscholastic program if he/she:

Article V – Nonschool Participation

B. National Teams and Olympic Development Programs for Team and Individual Sport Athletes

Article V – Nonschool Participation

A. It is the philosophy of this Association that a student owes loyalty and allegiance to the school and team of which he/she is a member
during the season of a given sport. Athletes may compete in not more than two non-school events with school approval during each
regular sport season. The event(s) will not count against the individual maximum for the athlete in that sport. A student becomes ineligible
in a sport for the remainder of the season for not receiving school approval beforehand and/or competing in more than two nonschool
events in the same sport during the season of practice and competition established by the school. The penalty may be reduced with the
forfeiture of the two nonschool opportunities, upon request of a school on the basis of documented extenuating circumstances.

Note: When an athlete has been identified with or without permission and/or awareness resulting in a violation of this rule, the
penalty may be reduced once the violation has been rectified.

1. Nonschool games, meets, or contests shall be interpreted to include (a) all games, meets, or contests outside the control of the
school and (b) any games, meets, or contests within a school (other than official interscholastic athletic program) involving another
school or a nonschool organization.

2. A student who was a member of a school team in a given sport during the previous year may not delay reporting for the school team
beyond the school's official opening day of practice in order to continue nonschool training or competition, except in the fall-sponsored
sports of cross country, tennis, track & field, volleyball, and wrestling for boys, and basketball, cross country, golf, gymnastics,

deterioration, etc., will not be passed on to another student.

National Teams and Olympic Development Programs for Team and Individual Sport Athletes

1. During the school year, students who participate for their school in a sport may participate through training, tryout or competition on
a National Team or in a United States Olympic Development Program provided the student receives an individual invitation from
either the United States National Governing Body (NGB) on the national level for that sport or from the United States Olympic
Committee:

a. National Team Definition: A national team is a team selected by the National Governing Body (NGB) of the sport on a national
qualification basis either through a defined selective process or actual tryouts for the purpose of international competition which
requires the entries to officially represent the respective nations, although it is not necessary there be team scoring by nation.
Participation by high school students on bona fide national teams that represent the United States may be permitted.

b. Olympic Development Program Definition: An Olympic Development Program (ODP) is defined as a training program or
competition that is conducted or sponsored by the United States Olympic Committee, or directly funded and conducted by the
United States Olympic committee member National Governing Body (NGB) on the national level, or specifically authorized by a
Section 2 – Out-Of-Season

A. It is the philosophy of this Association that while athletes should not be unreasonably restricted, except during the actual school season of a sport. Subsequently, students may voluntarily assemble at any time without school and/or school coach involvement.

1. A school is allowed to conduct a clinic, in a given sport, in the summer (when school is not in session). These clinics may be for a maximum of six days, and all must be concluded no later than the last Saturday in July.

B. Coaches may not have coaching contact with any athletes they will be coaching the following school season during restricted times (except their own children).

C. Other than during the actual school season, the following provisions shall apply to nonschool participation in accordance with Section 2B above:

1. An acceptable program or activity is one which is not limited to students on the basis of a school affiliation, athletic experience, team status, etc., and no school monies or resources can be applied.

2. The person who will be coaching a student in the following school season shall not be permitted to coach that student other than during the designated school season for that sport, except that:

a. All sports except football are exempt from this requirement during the summer period, provided the program is not limited to students as described in C-1) of this Section.

b. This provision shall not prevent a coach from having supervisory responsibilities outside the designated season of a sport. Supervisory involvement, however, does not include situations like club team coaching (such as swimming & diving, except in summer), driving (or accompanying) student to competition or training (clinics, camps, etc.), conducting drills, throwing batting practice, running through plays, demonstrating techniques, or any other activity which could be regarded as coaching or instructing.

c. Coaches are allowed to recreate along with students in school sponsored open gyms which are purely recreational in nature.

d. A member school is permitted to supervise conditioning programs under the open gym provisions, which may include weight lifting, speed, agility, fitness. The program must be limited to non-sport and non-sport-skill-specific instruction. Basic ‘instruction’ e.g., safe lifting, safe spotting, training regimen and rationale, are permitted. No sport implements and/or sport specific movement/drills should be part of the open gym or weight room. These conditioning programs must be made known and accessible to all interested students and must be voluntary.

D. With approval of its governing body, a school may issue its own equipment, uniforms and other apparel for use by athletes in training or non-school competition out-of-season at its own discretion.

E. It is not permissible for any person or organization except the student or parents, to pay for any of the cost or fee for any kind of nonschool activity involving specialized training or similar instruction.

Students must pay 100% of any expenses, including transportation, to any nonschool (out-of-season) camps, clinics or specialized training.

Schools are reminded that free and/or reduced rate opportunities afforded to select individuals can affect amateur status.

Note: This provision shall not prevent a school from covering the costs of team participation in a clinic or similar activity during the season of a sport and/or unrestricted summer contact days.

F. A student must discontinue summertime participation in nonschool competition prior to the first day of the school’s official opening day of practice in the same sport.

Note: See exception in Section 1-A-2) of this Article.

Section 3 – All-Star Activities

A. It is the philosophy of this Association that all-star games and similar activity do not serve the best interests of junior high/middle level students, because of overemphasis, exploitation, selection procedure, and/or other factors.

B. A student becomes ineligible in a sport for a maximum of one year from date of last offense for participating in an all-star game or similar activity.

1. An all-star team consists of students chosen on the basis of individual accomplishment or reputation from two or more existing or recently existing teams. An all-star game is one played between two teams, either of which consists of selected students of two or more existing or recently existing teams.

Note: In individual sports, participation by invitation and with no team affiliation would be exempt from this rule.
Section 4 – Prohibited Activities

A. Students may be ruled ineligible to participate in, or for participation in, any event or activity conducted by other than a school which may be regarded as contrary to the best interest of the participants or detrimental to the school athletic program.

Article VI – Health and Behavior/Compliance

Section 1 – Required Documentation

A. A student may not practice for or participate in interscholastic athletics until the school has written evidence on file in its office attesting to:

1. Parental permission each school year including an acknowledgement of receiving the school athletic code,
2. Acknowledgement of receiving the WIAA Rules of Eligibility,
3. Athletic Emergency Form
4. Current physical fitness to participate in sports.

Section 2 – Physical Examination

A. A preparticipation physical fitness form attesting to current physical fitness to participate in sports as determined by a licensed physician, Physician’s Assistant (PA) or Advanced Practice Nurse Prescriber (APNP) no less than every other school year with April 1 the earliest date of examination. School policy determines when an athlete may return to competition following an injury, except where rule book or WIAA tournament policies apply.

B. Physical examination taken April 1 and thereafter is valid for the following two school years; physical examination taken before April 1 is valid only for remainder of that school year and following school year.

Note: It is recommended that a student also have dental fitness attested by a licensed dentist.

Section 3 – Code of Conduct

A. A school shall have a code of conduct for its athletes. The code of conduct should be in place prior to the start of the school year. The code should be developed with the involvement of students, coaches, and administration and adopted by the Board of Education or recognized governing body.

1. A student is required to follow the school’s code of conduct on a year-round (12 month) basis.
   a. In-season violations of the school code will result in immediate suspension of the student from interscholastic competition for no less than one day of competition (but not less than one complete game or meet) for acts involving possession and/or use of alcohol, (b) possession and/or use of tobacco, including chewing tobacco and/or (c) use, possession, buying, or selling of controlled substances, street drugs and performance enhancing substances (PES).

   Note 1: When the suspension results in a fraction of a game, the number shall be rounded up to the next whole number of games (i.e. 2.1 or 2.8 games equals 3 games).

   Note 2: This is a minimum penalty and may not be reduced by any other provision of the school code.

   Note 3: Any portion of the suspension not completed during the current season will carry over to the next sport or sport season.

   Note 4: Victims of sexual assault and bystanders who report a sexual assault, request emergency assistance, cooperate with an assist law enforcement, and stay on the scene or who encounter law enforcement at a medical facility at which the victim is being treated cannot be issued a code of conduct violation. The victim or bystanders must meet the State Amnesty Law Requirements. The victim may not falsely claim amnesty knowing that the situation that he or she reports does not exist.

b. The member school will determine minimum penalties for violation of any other provisions of its code of conduct, including all out-of-season offenses.

c. The member school will determine minimum penalties for any other unacceptable conduct contrary to the ideals, principles, and standards of the school and this Association, including but not limited to criminal behavior.

d. Any student charged and/or convicted of a felony shall, upon the filing of felony charges, become ineligible for all further participation until the student has paid his/her debt to society and the courts consider the sentence served (including probation, community service, etc.).

   Note: Except for conduct violations under paragraph (4) felony charges, the school must provide an opportunity for the student to be heard prior to any penalty being enforced. If a student appeals a suspension, according to the school’s appeal procedure, the student is ineligible during the appeal process.

B. The WIAA is against the use of anabolic-androgenic steroids and other performance enhancing substances (PES). Member schools shall devote time each year to positive programs which highlight prevention and education of the risks, benefits and adverse effects of PES. Coaches, teachers, sports medicine staff and school administrators who ignore or encourage the use of PES, provide and/or sell PES to athletes (including indirect distribution through a third party) shall be subject to their own school’s provisions regarding discipline.

Section 4 — Flagrant or Unsportsmanlike Conduct and/or Assault on an Official

A. A student, disqualified from a contest for flagrant or unsportsmanlike conduct, is suspended from interscholastic competition for no less than the next competitive event (but not less than one complete game or meet) at the same level of competition as the disqualification.

   Note: The penalty shall be served in the sport in which the offense occurred. If that sport season is completed, then it shall be served in the next sport or sport season.

B. Any player who in the judgment of the official, intentionally spits on, strikes, slaps, kicks, pushes or aggressively physically contacts an official at any time shall be immediately ineligible for competition a minimum of 90 calendar days from the date of the confrontation. In addition, the player is ineligible to compete for the first 25% of the next season in that same sport.

6. Junior high/middle level students (Grades 6-8) are not eligible to compete with or against students enrolled in Grades 9-12.
   Note: In emergency situations a waiver may be requested allowing 9th grade student(s) to compete at the 8th grade level at member middle schools.

7. Teams shall be allowed to wear old varsity uniforms provided participant safety is not jeopardized.

8. Recommend organizational meeting be conducted prior to the season opening. No instruction or practice can be included.

2. CONTEST CONTROL
   a. All schools are responsible before, during, and after a contest for the proper conduct of their coaches, athletes, students, and other spectators and, when requested, a school must complete a report regarding the contest in which a problem occurred (WIAA Bylaws, Article IX).

   The official rules for all interscholastic competition are contained in the (a) current edition of SWIMMING AND DIVING RULES and (b) related publications and interpretations of the National Federation with these additional provisions:

   NATIONAL FEDERATION ALLOWED ADAPTATIONS
   a. Exhibition
      (1) There must be prior written mutual agreement among the involved schools. This must be facilitated prior to the day of the meet.
      (2) Officials should be informed that the meet will include exhibition performances and in what events. The notification should be prior to the day of the meet.
      (3) The number of individual exhibition entries in an event should not exceed the maximum allowed for the meet. If a school is allowed three entries per individual event, the maximum allowed for exhibition is three.
      (4) Exhibition performances should not adversely affect the length of the meet. (Rule 3-2-1-a).
   b. For competing without submitting an entry card (sign-up) sheet, the competitor or relay team shall be disqualified from that event only. Other legally entered competitors or relay teams from that same school shall not be penalized (Rule 3-2 Pen.).
   c. In dual meets, the entries for the varsity event become official and no changes will be allowed upon the start of the JV event which precedes it. Coaches and officials may elect to use another system if agreed to prior to the start of competition (Rule 3-2-3).
   d. When it is noted a heat is missing a contestant, the meet referee will hold that heat until the situation can be resolved. The involved contestant must be charged with a false start for delay of the meet for that event, but shall be allowed further competition in the meet (Rule 3-2-4).
   e. The Length of Events may be modified for nonvarsity competition and invitational meets (Rule 5-1-1).
   f. In all meets (championship and nonchampionship) there must be dual confirmation of a false start by the referee and starter before a school swimmer or relay team is disqualified. (Rule 8-1-3).
   g. In all championship meets having at least three officials, there must be dual confirmation of relay takeoffs before a school swimmer or relay team is disqualified.
   h. Diving Competition (Rule 9-1-1)
      (1) Diving competition will be conducted on one meter boards only.
      (2) If a host school cannot conduct diving competition because of water depth, the following options are available:
         (a) With prior mutual consent, conduct diving at an alternate site and add diving points to total meet score.
         (b) No diving competition – points are lost to the meet. Total team score from 11 swimming events only. Note: A break of at least 15 minutes, including at least 10 minutes in water, must be taken during the normal diving event unless there is mutual agreement of all involved schools to shorten.
(3) If a host school can conduct diving, but is competing with schools which do not sponsor diving because of illegal facilities, the conference (if a conference meet) or the meet contract (if a nonconference meet) shall determine if diving will be scored. If diving is not conducted, the length of the break needs to be determined. 

(4) If a school, however, has a legal facility but is not sponsoring diving because of lack of a coach or athletes, diving must be conducted in meets with schools sponsoring diving and appropriate points for diving forfeited to opponent(s).

STATE ASSOCIATION REGULATIONS

a. Feet first entry shall be required every time an individual enters a swimming pool with the exception of supervised situations such as starting a race, practice starts, and practice dives.

b. All coaches shall review with their swimmers and parents the dangers associated with a head first entry into a swimming pool.

c. Prior to competition, warm-up procedures are required to have one-way sprint starts only. Swimmers start at one end and exit at the opposite end of the pool.

d. Prior to the visiting school beginning their warm-ups, there will be a meeting that includes an official (if available), head coaches from each team and the captains from each team to review the warm-up procedure, pool environment, water-depth at both ends, uniform rules, starting blocks, lane selection, emergency procedures, conference rule differences, lifeguard issues and other pertinent issues.

e. During competition, athletes shall not perform the pike dive (scoop or hole in the water) forward start. The penalty for the first violation shall result in disqualification of the swimmer from that event. A second violation in the same meet shall result in the swimmer being disqualified from the remainder of the meet, but not the next meet. The swimmer is deemed to have violated this rule if he/she leaps higher into the air than would be the case in the traditional flat racing start and bends at the hips at the peak of the dive and enters the water with the body inclined at any angle greater than 45 degrees with relation to the surface of the water. Dual confirmation is not required as this will be considered an illegal start (violation) rather than a false start.

f. During competitive meets (swimming and diving) there shall be a lifeguard (minimum age of 16) on duty before the visiting team may enter the pool or diving well and until the last member of the visiting team leaves the pool/well. The lifeguard shall be someone who is not responsible for any other duties during this time frame.

g. Starting platforms shall be removed, covered, or otherwise rendered unusable for entries into water of any depth when there are no lifeguards on duty to supervise the proper use of the platforms.

h. Meet contracts shall specify depth of water in the starting end and height of starting blocks.

i. During championship meets, the pool shall be closed during the coaches meeting.

j. Schools shall be knowledgeable of the current state code regarding public swimming pools found in Chapter HFS 172 and available from their local county health department.

k. Number of Diving Entries

The maximum allowed number of divers in a dual meet is limited to the same number of entries allowed for swimming. In four-lane pools, maximum of eight (four varsity and four JV) divers for both teams with a maximum of six divers allowed if only one team sponsors diving. In a six-lane pool, maximum of 12 divers for both teams or nine divers for one team. In an eight-lane pool, a maximum of 16 divers for both teams or 12 divers for one team.

l. Meet Committee

(1) All championship meets should appoint a meet committee consisting of referee, starter, meet manager and two coaches, not from the same school or host school.

(2) Their responsibilities are to rule on situations not covered by rules.

(3) Their jurisdiction does not extend to questions arising out of the actual conduct of competition.

(4) Responsibility for enforcing and interpreting rules governing conduct of competition rests with the meet referee.

m. All competitors, once officially entered, must compete in all heats and rounds of competition (excluding swim-offs) for which they entered except:

(1) With a declared false start.

(2) When illness or injury certified by a physician or the referee forces a competitor to withdraw.

(3) In both situations, the event counts as an entry withdrawn and no replacement is allowed.

(4) A competitor who withdraws because of injury or illness may be reinstated by the referee or a physician at any time.

8. FLAGRANT OR UNSPORTSMANLIKE CONDUCT AND INELIGIBLE ATHLETES

a. A student, disqualified from a contest for flagrant or unsportsmanlike conduct, is suspended from interscholastic competition for no less than the next competitive event (but not less than one complete game or meet) at the same level of competition as the disqualification.

b. Schools should establish their own policy as to whether athletes are allowed to be in uniform and participate in pregame and postgame activity, if they are ineligible to compete due to flagrant and/or unsportsmanlike conduct, athletic and/or academic code violations, or for any other reason.

c. Any player who in the judgment of the official, intentionally spits on, strikes, slaps, kicks, pushes or aggressively physically contacts an official at any time shall be immediately ineligible for competition a minimum of 90 calendar days from the date of the confrontation. In addition, the player is ineligible to compete for the first 25% of the next season in that same sport.

A. Aggrieved Parties May Appeal Decision

If an administrator or board of education of a member school, a student or parent/guardian or a game official is dissatisfied with a decision or with a ruling or interpretation of the Executive Director relative to the provisions of the Constitution, Bylaws, Rules of Eligibility, or Guide for Officials, and such administrator, board of education, student or parent/guardian or game official is an aggrieved and affected party, such party may within 15 days of receipt of the decision submit to the WIAA, a notice of appeal of the decision and a request for a formal hearing before the Board of Control.

Any aggrieved parties appealing a decision or a ruling or interpretation of the Executive Director relative to the provisions of the Constitution, Bylaws, Rules of Eligibility or Guide for Officials must cite the provision of the Constitution, The Bylaws, The Rules of Eligibility, or Guide for Officials allegedly violated and must state the waiver sought or the relief desired.

B. Application/Status

The WIAA Appeals Procedures do not apply to the Executive Director's rulings, interpretations or decisions relating to sports regulations, National Federation rules or regulations, WIAA adopted National Federation rules or regulations as amended or any other determinations not specifically set forth in paragraph A above. The decision of the Executive Director and any penalty or penalties imposed shall remain in effect until such time as a contrary decision is made by the Board of Control pursuant to the procedures set forth herein. If there is an event or competition which is scheduled to take place prior to the time a determination is made by the Board of Control, the Executive Director's decision will remain in effect until such time as a determination is made by the Board of Control.

C. Notice

The Executive Director shall notify the appealing party, of the time and place set for a hearing on the appeal. The hearing shall be conducted in conjunction with a regularly scheduled meeting of the Board, or the matter may be heard at a special meeting of the Board at the discretion of the Board.

D. Attendance at the Hearing

Member school administrators, boards of education, students or parents/guardian or game officials who are appealing parties are entitled to attend hearings. In the instance of a student submitting the appeal, such student may be represented by the member school attended. Any person entitled to be in attendance at such hearing may represent themselves. Such persons are also entitled to be represented by counsel.

E. Board of Control to Hear Appeals

The Board of Control of the Association shall hear and decide all appeals brought under the provision of these rules. The President of the Board of Control may appoint a hearing officer to preside over the hearing or may act as the hearing officer. The hearing officer may, at the beginning of the hearing, ask for statements clarifying the issues involved or factual matters to which the appealing party will stipulate and agree. The appealing party shall present its defense and proofs. The parties may offer such evidence, including the testimony of witnesses, as they desire and which shall be relevant to the proceedings. Each party shall have the right to cross examine witnesses of the adverse party. All parties shall be afforded the opportunity to examine all documents introduced.

F. Closing of Hearing

The hearing officer shall specifically inquire of all parties whether they have further evidence. Upon receiving negative replies, the hearing officer shall declare the hearing closed.

G. Hearing in Absence of any Party

The hearing may proceed in the absence of any party who, after it is shown has received due notice thereof, fails to be present or fails to request an adjournment. A majority of the members shall constitute a quorum for any meeting. Adjournments may be considered by the hearing officer upon the request of a party or upon the initiative of the hearing officer. However, a decision shall not be made solely upon the default of a party, but shall be based upon the evidence in the matter before the Board.

H. Decision of the Board

The decision of the Board of Control shall be made by a majority of the voting members at the hearing no later than the next regularly scheduled meeting following the hearing. The decision shall be in writing, signed by the Board of Control President or Executive Director, and shall state the conclusions of the Board. It shall be mailed to the appealing party. All decisions of the Board shall be final and nonappealable except as provided by these rules.
The Board of Control's authority in conference alignment is outlined in the Constitution of the WIAA under Article VI-Powers and Duties of the Board of Control, Section 10, as follows:

The Board of Control has the authority to take action to bring about a reasonable conference affiliation and relationship for member high schools. Reasonable conference affiliation and relationship with member high schools may include total movement of member schools, sport specific relief, and/or scheduling assistance.

Note: While it is not generally the intent to make wholesale changes in existing conference lines; it should be understood that there could be shake-ups in areas where conference affiliation problems are particularly acute. It should also be understood that it may not be realistic to find a solution for every member school.

For inclusion in a conference, any member high school, either through co-op application or by singular sponsorship, must offer one sport for boys and one sport for girls in the fall, winter, and spring. Schools that are not coeducational must adhere to a similar single-gender requirement.

Authority of Contest Manager

The Constitution reference for this section, Authority of Contest Manager, is Article X – Game Control on Page 27 of this HANDBOOK.

Guidelines

It is necessary that a school designate a contest manager for every contest it hosts. This applies to all sports and all levels of competition. It is also important to be understood that the coach will automatically serve as the contest manager if no one else is so identified. The individual that will serve as contest manager should introduce himself/herself to the contest officials prior to the contest.

These guidelines are limited to the authority of a contest manager as it relates to whether or not:

A. A contest shall begin after all participants have arrived.
B. A contest should continue after it has started.

In both cases, the manager will be concerned only with playing conditions, i.e., weather, facilities, equipment, and/or crowd control.

A. Unless otherwise indicated in the rule book of the sport involved, the contest manager’s authority exists from the time participating teams arrive up to the actual start of the contest.
B. The contest manager’s authority is limited once the contest begins. He/she may, at an appropriate time, consult with game officials to indicate concern about safety of the participants as it relates to weather, facilities, equipment, and/or crowd control. The manager is not to interject concerns regarding such things as rough play, score differential, judgment calls, or quality of officiating. Only the contest officials have the authority to terminate a contest once it has begun.
C. If because of conduct the contest is to be rescheduled on a different day, the WIAA office should be involved in that decision.

Note: If the contest is to be resumed, proper note must be made of all pertinent details; for example, in a football game – yard line, down, yards-to-go, time, unsportsmanlike penalties, etc. Documentation of these details should be made in the form of a signed agreement by representatives of all schools involved.

When a Coach is Contest Manager

All the above provisions apply. The coach, prior to and following the contest, must act in a capacity of contest manager as well as coach. During the contest, he/she may, in addition to serving as coach, be called upon to take action as a contest manager as provided in B. above.

Reporting System

When a contest is not allowed to start after teams have arrived or is interrupted because of poor conduct on the part of spectators, contestants, and/or coaches, a letter of explanation must be sent to the WIAA office, by the contest manager and the contest officials, providing:

A. Details regarding the incident.
B. Plans, if any, for rescheduling or resuming the contest.

Note: It is recognized that no single guideline or statement can be all inclusive. Contest managers are expected to take any action they feel necessary as they administer their duties.

Concussion Information - When in Doubt, Sit Them Out!

1. Before a student may participate in practice or competition: At the beginning of a school year for a youth athletic activity, the person operating the youth athletic activity shall distribute a concussion and head injury information sheet to each person who wishes to participate in that youth athletic activity. No person may participate in a youth athletic activity unless the person returns the information sheet signed by the person and, if he or she is under the age of 19, by his or her parent or guardian. At the beginning of a season for a youth athletic activity, a concussion and head injury information sheet shall be distributed to each person who will be coaching that youth athletic activity.

2. An athletic coach, or official involved in a youth athletic activity, or health care provider shall remove a person from the youth athletic activity if the coach, official, or health care provider determines that the person exhibits signs, symptoms, or behavior consistent with a concussion or head injury or the coach, official, or health care provider suspects the person has sustained a concussion or head injury.

3. A person who has been removed from a youth athletic activity may not participate in a youth athletic activity until he or she is evaluated by a health care provider and receives a written clearance to participate in the activity from the health care provider. No athlete shall return to play or practice on the same day of being diagnosed with a concussion or rendered unconscious.

These are some SIGNS of concussion (what others can see in an injured athlete):
- Dazed or stunned appearance
- Change in the level of consciousness or awareness
- Confused about assignment
- Forgets plays
- Unsure of score, game, opponent
- Clumsy
- Answers more slowly than usual
- Shows behavior changes
- Loss of consciousness
- Asks repetitive questions or memory concerns

Concussion SYMPTOMS are often categorized into four main areas:

1. Physical – This describes how they feel: headache, nausea, vomiting, dizziness, tired and loss of consciousness (which is uncommon in concussion). Vision and balance problems are also recognized as potential signs and symptoms of a concussion.
2. Thinking – Poor memory and concentration, responds to questions more slowly and asks repetitive questions. Concussion can cause an altered state of awareness and thinking.
3. Emotions – A concussion can make a person more irritable or sad and cause mood swings.
4. Sleep – Concussions frequently cause trouble falling asleep and may wake athletes up overnight, which can make them more fatigued throughout the day.

Injured athletes can exhibit many or just a few of the signs and/or symptoms of concussion. However, if a player exhibits any signs or symptoms of concussion, the responsibility is simple: remove them from participation. An athlete should never return to play on the same day. “When in doubt sit them out.”

It is important to notify a parent or guardian of any athlete with a suspected concussion. All athletes with a concussion must be evaluated and receive written medical clearance by an appropriate health care provider before returning to practice (including conditioning and weight lifting) or competition.

RETURN TO PLAY

In order to resume activity, the athlete must be symptom free and off any pain control or headache medications that they were not taking prior to the concussion. The athlete should be carrying a full academic load without any significant accommodations for 1-2 days. Finally, the athlete must have written medical clearance from an appropriate health care provider.

The program described below is a guideline for returning concussed athletes when they are symptom free. Athletes with multiple concussions and athletes with prolonged symptoms often require a prolonged or different return to activity program and should be managed by a physician that has experience in treating concussion.

The following program allows for one step per 24 hours. The program allows for a gradual increase in heart rate/physical exertion, coordination, and then allows contact. If symptoms return, the athlete should stop activity and notify their healthcare provider before progressing to the next level.

STAGE ONE: Daily activities that do not increase symptoms (gradual reintroduction of school, work and walking).

STAGE TWO: Light aerobic exercise: slow to medium pace jogging, stationary cycling. No resistance training. This allows for increased heart rate.

STAGE THREE: Sport-specific exercise: moderate to higher intensity running or skating drills, but no activities with risk of head impact. This allows for increased heart rate and agility/movement.

STAGE FOUR: Non-contact training: Higher intensity aerobic fitness, and non-contact/non-collision team training drills (e.g., passing drills). May begin progressive resistance training. This increases coordination and thinking during sport.

STAGE FIVE: Full contact practice. Following medical clearance, participate fully in normal training activities. This restores confidence and allows coaches to assess functional skills.

STAGE SIX: Full clearance / Normal game play.

Required Number of Officials for Contests

A function of the Wisconsin Interscholastic Athletic Association is the licensing of game officials for interscholastic competition as stipulated in its CONSTITUTION under Powers and Duties of the Board of Control as follows:

The Board of Control shall license game officials for interscholastic competition, and the Board shall have the authority to determine qualifications, procedure for advancement and conditions for revocation, suspension or probation of license.

Member schools of this Association are required to use only WIAA licensed sport officials as stipulated under Article IX - Officials Qualifications in the BYLAWS as follows:

A school shall use only persons licensed with the Association for purposes of officiating interscholastic contests – varsity, junior varsity, sophomore, freshman and junior high/middle level school (Grades 6-8). The following number of licensed officials (as noted in parenthesis) are required for each sport:

Baseball (2) – Umpires (Three person crews are acceptable. Three person crews will be used at sectionals, four person crews will be used at State).

For junior high/middle level one licensed official is required but two are recommended. Note: Schools cannot use unlicensed individuals as their second official.

Basketball (2) – Referee and Umpire (Three person crews are acceptable. Three person crews will be used at regionals, sectionals and State.)

Cross Country (1) – Referee-Starters (two are recommended for all interscholastic competition).

Football – Regular Season (4): Referee, Umpire, Linesman, and Line Judge
Playoffs (5): Referee, Umpire, Linesman, Line Judge, and Back Judge

Note: For interscholastic competition other than senior high varsity games, only three officials are required (four are recommended). Five person crews are acceptable.

Hockey (3) – Referee, Assistant Referee, and Linesman - at all levels of competition.

Soccer (3) – Head Referee and Assistant Referee (2) required for all varsity (nonconference and conference) duals.

Note: Two officials are acceptable for varsity multi-school tournaments and subvarsity contests.

In emergency situations, one licensed WIAA official and two volunteers may be used to officiate subvarsity games. The volunteers would not need to be licensed and would not be required to be in a uniform. The volunteer official would only indicate when the ball is out-of-bounds and which team would get the throw in. The volunteer will not call offside.

Softball (2) – Umpires - (Three person crews are acceptable. Three person crews will be used at the state tournament and the sectional championship.) For junior high/middle level one licensed official is required but two are recommended. Note: Schools cannot use unlicensed individuals as their second official.

Track and Field (2) – Field Referee and Starter

Volleyball (2) – R1 and R2

Note: For interscholastic competition other than senior high varsity games, only one licensed official is required (two are recommended).

Wrestling (1) – Referee

Middle level/junior high members are required to use the number of game officials as noted above in all competitions unless otherwise noted.

Individuals in high school may apply for licensing and officiate contests up to and including the 9th grade level. High school students, classified as Limited/Restricted (L/R), are allowed to officiate subvarsity contests in all sports except hockey as long as they are assigned with a fully licensed, non-high school official. High school age officials are also able to be assigned as lines people for varsity contests in soccer.

Contracts engaging services of officials (available on WIAA website) must be executed by officially designated representative of the schools for ALL interscholastic competition at ALL levels of competition. Contracts are required for Association sponsored tournament competition as well as all other types of interscholastic activity.

WIAA member schools and officials are reminded that games/meets should not be started at any level of competition without the required number of officials. Schools and officials expose themselves to potential problems as well as WIAA disciplinary action if a game/meet starts with less than the number of officials required. If an official becomes incapacitated after a game/meet begins, the school is expected to attempt to fill the position with another licensed official.

Purpose of Licensure

1. It is the purpose of this Association, in its program of licensing officials, to advance the best interest of interscholastic competition by:
   a. Aiding officials in acquiring a thorough knowledge of playing rules in all sports.
   b. Promoting uniformity in the mechanics of officiating.
   c. Encouraging competent young officials to replace retiring officials.
   d. Establishing classifications for officials.
officials. To help implement this requirement, this Association conducts sport meetings or offers online video presentations. The official is required to attend a sport meeting in sports in which they are conducted for the purpose of keeping informed of rules changes and new interpretations as well as general review of all rules and regulations. If no sport meeting is offered officials are required to watch an online video. All officials are required to take a written examination(s) for those sports in which they are offered.

3. A thorough knowledge of the mechanics of officiating is imperative for a properly officiated contest.

4. Dedication to high-professional standards as developed by tradition and through practice will be regarded by this Association as highly desirable on the part of officials. A proper attitude toward the avocation of officiating will contribute toward the total value of the interscholastic program.

5. The WIAA encourages the formation of local officials associations. All officials are encouraged to become active members of such associations.

**Licensure Procedure**

1. Officials license is valid from August 1 through July 31. License applications for any particular sport will not be accepted after the first day of the WIAA tournament series in that sport. Exceptions will be made for officials wishing to work junior high/middle level contests.

High school students, classified as Limited/Restricted (L/R), are allowed to officiate subvarsity contests in all sports except hockey as long as they are assigned with a fully licensed, non-high school official. High school age officials are also able to be assigned as lines people for varsity contests in soccer. Note: After 2 years experience as a L/R official there is opportunity for advancement to L2 upon high school graduation with verification.

3. The basic fee for each licensed official (no fees charged to high school students) will be $35. A $15 sport fee will be assessed for each sport for which you elect to be licensed.

This offer is extended to those current and former military personnel who are licensing as a WIAA sport official for the first time.

8. By submitting an application for a license to officiate WIAA athletic contests, applicant acknowledges that he/she is performing duties as an independent contractor and not as an employee of the school or of the WIAA when officiating contests authorized by the issuance of this license.

   Note: L1, L2, and L3 officials will be allowed to advance two levels in classification per sport, per year, when credited for attending a WIAA approved officiating clinic or completing a NFHS officiating video for the sport(s) licensed, provided they meet all the criteria for the new level (maximum one clinic or NFHS officiating video per sport/year). 5. An official’s classification level will be dropped one level, in a given sport, for each year he/she is not licensed.
