

## **Correction to Injury Time 2019-20**

In the recent October WIAA Bulletin, page 6 regarding "Wrestling Injury Time:"

All reference in the article to Recovery Time being extended to 5 minutes to examine potential head/neck/nervous system injury should be disregarded. This was in the original Wisconsin proposal to the NFHS. They did not adopt that part of our rule proposal. Recovery time will remain 2 minutes, it may not be extended.
