

In an effort to improve the entry process, tournament advancement, and athlete performance tracking, the WIAA is transitioning to Athletic.net for the Tournament registration. If you have not yet registered for a meet through Athletic.net's platform with your current school, you will need to create a new account on Athletic.net. If you are new to Athletic.net, please read below for information on getting you and your team setup. There are links to instructions and tutorials to take you through the process as well.

Entry Deadline is Friday, May 22nd at 8:00 am

All Regional Registration Links can be found here: [Athletic.net](https://athletic.net)

Creating Your Account

If you do not already have a FREE account on Athletic.net, you can create one here: [Account Creation](#)

Click the "New User?" button and go through the account setup process. It will come to a section where it asks you to upgrade to a paid account, but there is an option to continue with a free account. There is no need to pay for an account on Athletic.net for meet registration.

Importing/Updating Your Roster

Even if you are a new user, your roster will likely already have most (if not, all) of your athletes added. But it is possible you may need to add some athletes, or in the rare case, add your entire roster. There are a few different ways to handle that. For instructions on all things related to managing your roster: [Click Here](#)

Placing Entries into your Regional

All Regional Meets can be found here: [Athletic.net](https://athletic.net)

Locate your Regional Meet and begin the registration process. Make sure you select the CORRECT Regional. Entries placed into the wrong Regional will not be accepted.
